BUILT WITH AFRICA IN MIND

KOBARA

LIGHTPAPER 1.0

An AI creative studio with
African roots. A token on Solana.

PICTURES / MUSIC / VOICES / VIDEOS / MEMES

Built with Africa in mind

WHY WE BUILT KOBARA

We’re a team of AI developers building Kobara so more people across Africa can take part in the AI creative economy.

Our goal is to give creators, small businesses and communities a place to make media that reflects their own stories, sounds and ideas.

Illustration at right represents the mission.

Make the picture. Tell the story.

Two ways to turn an idea into something people can see.

Picture Studio

Generate artwork, cover art, thumbnails, flyers and visual concepts from a brief.

Video Studio

Generate short clips for stories, promos, teasers and social posts from a visual idea.

Example workflow / Draft the campaign image, then use the same idea for a short teaser.

Give your work a sound

Create music for the mood and a voice for the message.

Music Studio

Generate tracks, backing music, jingles and audio ideas from a prompt.

Voice Studio

Generate spoken audio for narration, voiceovers and short announcements.

Example workflow / Make a backing track and a voiceover for a product teaser.

Make something worth sharing

Use the studio for quick ideas as well as larger projects.

Meme Studio

Turn a trend or inside joke into an original visual your community can recognise and share.

REACTIONS / COMMUNITY POSTS / CAMPAIGNS

Quick creative tasks

Make a simple thumbnail, post graphic, short audio intro or teaser clip with the studio tool that fits the job.

START WITH A BRIEF. GENERATE. REFINE.

Kobara Credits can be used for eligible generation tasks across the studio.

Kobara Credits power creation

Earn credits through qualifying campaign activity or purchase credits on Solana.

01 / PURCHASE

- KOBARA TOKEN
- SOL
- USDC

Payment assets on Solana

→

02 / STUDIO BALANCE

Kobara Credits

Credits appear in your studio dashboard.

→

03 / GENERATE

- Pictures
- Music and voices
- Videos and memes
- Other supported outputs

KOBARA is the token. Kobara Credits are the balance you spend in the studio.
Eligible campaign credits also have a separate Convert & Claim process.

72 hours to rally your community

The campaign runs across social media and inside Kobara Studio.

01

Get your invite link

Open your campaign dashboard to find your personal link.

02

Invite and earn

Share your link. Qualifying referrals earn Kobara Credits.

03

Track your progress

Follow your credits and check the campaign leaderboard.

TOP 50

The leaderboard displays 50 places.
Everyone can track their own progress.

$1,000

The top 10 share the prize pool.
Airdrop eligibility follows separate rules.

Use your personal invite link so qualifying referrals can be credited to you.

The KOBARA airdrop

Campaign participants can qualify regardless of leaderboard position.

50 MILLION

KOBARA IN THE AIRDROP POOL

5,000

KOBARA CREDIT THRESHOLD

HOW CONVERT & CLAIM WORKS

01

Participate

Be active in the campaign and reach the credit threshold.

02

Check the ratio

The portal displays the ratio after the campaign and token launch.

03

Convert & Claim

Eligible participants use the portal to claim their share of the pool.

The 50 million pool is the full airdrop allocation in the tokenomics.

2 billion KOBARA

Planned total supply. 70% allocated to liquidity.

ALLOCATION	KOBARA	SHARE
Liquidity	1,400,000,000	70%
Team	200,000,000	10%
Marketing	100,000,000	5%
Staking & Rewards	100,000,000	5%
Airdrop	50,000,000	2.5%
Development	100,000,000	5%
Reserve	50,000,000	2.5%

The liquidity figure is a token allocation. Launch liquidity details will be published separately.
The 50 million KOBARA airdrop allocation funds the 72-hour campaign.

From the campaign to the studio

The next milestones connect community participation with studio use.

01 / CAMPAIGN

Invite and track

Bring invite links, earned credits and the leaderboard into one campaign portal.

02 / TOKEN

Launch and claim

Publish the distribution ratio and enable eligible claims after the campaign and token launch.

03 / STUDIO

Create with credits

Build out the creative tools and credit purchases with KOBARA, SOL and USDC.
